**Monthly License Charge (MLC) Software**
- **includes license fees and support costs**
- governed by IBM Customer Agreement (ICA) contract
- **AWLC, EWLC, MWLC, VSLC, and PSVL**

**Monthly Workload License Charge (WLC)**
- **includes license fees and support costs**
- governed by IBM Customer Agreement (ICA) contract
- **AWLC, EWLC, MWLC, VSLC, and PSVL**

**Advanced Monthly Workload License Charge (AWLC)**
- **includes license fees and support costs**
- governed by IBM Customer Agreement (ICA) contract
- **AWLC, EWLC, MWLC, VSLC, and PSVL**

**Monthly Entry Workload License Charge (EWLC)**
- **includes license fees and support costs**
- governed by IBM Customer Agreement (ICA) contract
- **AWLC, EWLC, MWLC, VSLC, and PSVL**

**Monthly Parallel System License Charge (PSLC)**
- **includes license fees and support costs**
- governed by IBM Customer Agreement (ICA) contract
- **AWLC, EWLC, MWLC, VSLC, and PSVL**

**System z software pricing** refers to both the pricing and the licensing terms and conditions for IBM software products that run in a mainframe environment. IBM's mainframe software portfolio includes operating system software (z/OS, z/VM, z/VSE, and z/TPF) and middleware that runs on these operating systems. IBM also offers a collection of tools to manage the mainframe environment and a set of software that executes in host-based Linux environment.
